Shohanur Rahman Shohan

Senior SQA Engineer

Dhaka, Bangladesh | shohan.cse.qa@gmail.com
linkedin.com/in/shohanur-rahman-shohan | github.com/shohan0120 | shohan0120.github.io

PROFESSIONAL SUMMARY

SQA engineer with 4+ years testing web, SaaS and AI products. At weDevs I lead Playwright and TypeScript automation for Dokan, the flagship marketplace, and release testing for CartPilot, an AI shopping assistant. Strong in risk-based, API and performance testing, CI and AI-assisted QA.

CORE SKILLS

Test automation	Playwright, TypeScript, JavaScript, Page Object Model, Appium
API and performance	Postman, REST, OpenAPI / Swagger, k6, JMeter
CI/CD and tools	GitHub Actions, Docker, Git, JIRA, TestRail
QA practice	Test planning, risk-based testing, test design, regression, UAT, RCA
AI-assisted testing	Claude Code, Playwright MCP, testing AI chat and voice features

PROFESSIONAL EXPERIENCE

QA Engineer

Mar 2025 – Present

weDevs, Dhaka

Product company behind Dokan, WP ERP, weDocs, FlyCRM and the StorePulse suite.

- Lead end-to-end and REST API automation for Dokan in Playwright and TypeScript, covering vendor onboarding, checkout, Stripe payments, admin and Pro modules, plus the Android app.
- Own release testing for CartPilot (AI shopping assistant with a SaaS dashboard), TryAura and StoreGrowth, covering AI response quality, billing rules, dashboards and data integrity.
- Maintain the shared Page Object Model framework used by the Dokan, StorePulse, FlyCRM, weDocs and WP ERP test suites, and migrated the WP ERP suite from Codeception to Playwright.
- Shortened regression feedback by running the end-to-end suite on 12 parallel GitHub Actions workers, with Dockerized test environments and HTML reports.
- Built AI-assisted testing workflows in Claude Code that draft test cases, run browser checks through Playwright MCP and prepare bug reports with screenshots for review.
- Validate REST APIs against OpenAPI contracts and run k6 load tests before major releases.

Software Quality Assurance Engineer

Jan 2023 – Feb 2025

Technohaven Company Ltd., Dhaka

Software company delivering enterprise and government systems.

- Built Playwright and TypeScript automation frameworks from scratch, with a Page Object Model and shared libraries reused across client projects.
- Replaced manual regression passes with automated cross-browser suites for BEPZA Automation, VATPROMPT and the ILO-GIZ project.
- Ran the full QA cycle in Agile Scrum: test planning, case design, execution, defect triage and root-cause analysis in JIRA, and release sign-off.
- Load-tested key workflows with JMeter, tested Android apps with Appium and set up shared Postman collections for API testing.

QA Intern, Functional Testing

Aug 2022 – Nov 2022

a1qa, Dhaka

- Tested web applications for international clients under senior QA guidance: functional and regression testing, test cases written from requirements, and defects tracked to closure.

AI-ASSISTED TESTING

- Designed a set of Claude Code agents and skills, one for each product I test, built on a shared test methodology.
- The agents draft risk-based test cases, run manual checks in a real browser through Playwright MCP, and prepare reproducible bug reports with a screenshot for each step.
- Added automated checks that review new test suites for missing cases and require my approval before anything is posted to GitHub.

PRODUCTS AND PROJECTS

Dokan	Multi-vendor marketplace platform, with an Android app
CartPilot	AI shopping assistant (chat and voice) with a SaaS dashboard
TryAura	AI virtual try-on plugin for online stores
StoreGrowth	Sales booster plugin: upsells, BOGO offers, countdown timers
FlyCRM	CRM with contacts, deal pipelines, quotes and invoices
weDocs	Documentation and knowledge base with an AI chatbot
WP ERP	HR, CRM and accounting suite
BEPZA Automation	Government automation system (Technohaven)
VATPROMPT	VAT and tax management platform (Technohaven)
ILO-GIZ Project	Donor-funded enterprise platform (Technohaven)

EDUCATION

B.Sc. in Computer Science and Engineering (Major in Software Engineering)

American International University-Bangladesh (AIUB), Dhaka
